FORWARD

Throughout this Directory, we have tried to provide a reference guide for nearly 100 community resources serving the population of Manistee County. The directory contains a listing of County agencies and includes a description of each individual agency, its purpose and the services offered. It also provides information regarding fees, application procedures, office hours, areas served, and any branch operations or affiliated programs.

The descriptions of services as stated in this directory were obtained from the respective agencies. Although extreme care was taken in the preparation of this Directory, continual changes have made it impossible to eliminate all errors. Agencies listed in the Directory of Community Services -- or desiring to be listed in future editions of the Directory -- are asked to bring any changes, corrections or new program information to the attention of:

SERVICES/DUTIES:

85th District Court is a court of record and is a district of the first class. District Court has the authority to hear and rule on misdemeanor cases (where the maximum possible sentence is one year in jail). The district court has exclusive jurisdiction in civil actions when the amount in controversy does not exceed \$25,000.00. The district court has jurisdiction over civil infraction actions. In addition, the court has jurisdiction over landlord tenant disputes and small claims (with damages not to exceed \$5,500.00)

The magistrate performs civil marriage ceremonies and adjudicates informal hearings on civil infraction cases.

The district court performs criminal/civil background searches.

The 85th District Court Probation Department provides adult probation services for offenders over the age of seventeen that are convicted of misdemeanor offenses. A person is granted probation by the presiding judge. Probation is a sentence that allows the offender to reside in their community under the supervision of the probation office. This department provides supervision in Manistee and Benzie counties and has an average case load of approximately 2,000 probationers.

The 85th District Court Probation Department, under the direct supervision of the judge, is committed to the protection of the community through innovative and aggressive monitoring to help reintegrate criminal offenders into society as law abiding productive citizens. The typical term a person is placed on probation for is 6 to 24 months.

The Probation Department believes that "good habits build good people". Our theory of probation is the reinforcing of habits that lead to success in life, and the avoidance of temptations that diminish one's prospects. What we are referring to here are the positive and productive habits, such as remaining sober, doing honest work, meeting one's obligations in life and thereby developing the strength of character necessary to live an ethical life in a free society.

MOVING MICHIGAN FORWARD:
MSU EXTENSION'S CONTRIBUTIONS TO A STRONG, VIBRANT FUTURE FOR OUR STATE

MSU Extension, the nation's inaugural Extension system, was built on a foundation of extending the university's knowledge to address real-world issues and opportunities facing Michigan residents. It continues in that vein today, connecting communities, families, young people, natural resource managers, farmers and other business leaders with MSU's cutting-edge knowledge resources to help strengthen the state's economic future.

A new structure is facilitating seamless response and action on important issues facing the state. Campus-based specialists and field-based educators, instructors and program assistants are mobilized under four programming themes via issue-based workgroups and endeavor to anticipate and address Michigan's most pressing opportunities and needs to adapt as those needs and opportunities evolve. Educational programs are centered around four central foci and are being delivered through audience-appropriate means that capitalize on new and emerging technologies and translate research findings from MSU faculty members.

MSU Extension staff members are working in teams to address challenges in these four broad topic areas:

* Agriculture and Agribusiness: Supporting Michigan's second-largest industry is key to a brighter future. Activities in this arena will emphasize increasing agricultural producer success, supporting food safety, reaching new markets and advancing agriculture through applied research.

* Greening Michigan: Moving toward a sustainable future for our state will require leveraging existing networks of community and economic development leaders, entrepreneurs and visionaries. They'll engage new partnerships to focus on initiatives around responsibly managing Michigan's rich natural and human resources.

* Health and Nutrition: Increasing Michigan's productivity and reducing healthcare costs will give Michigan residents the tools they need to embrace healthy living. A healthy population is also a sound financial investment for the future.

* Children and Youth: Ensuring a productive workforce means preparing today's young people to be tomorrow's leaders, entrepreneurs, educators, mentors and skilled employees. Youth programs are empowering youngsters to expand their horizons and lay the foundation for lifetime success.
